To promote innovation-based ecosystem in the campus, AIM- Institution's Innovation Council (IIC) encourages creativity among the students and faculties by supporting them to work with new ideas and transform them into prototypes. Looking at the enthusiasm level from students and other stakeholders in the room, Dr. Rao announced that Council (AIM-IIC) will move forward with exploring and connecting the student driven entrepreneurial venture at global level.

The brainstorming-workshop was organized to motivate and support student's ideas for developing a viable product, service, or platform etc. The interested students from all academic streams were invited to participate. Dr. Balram Rao, the Chairperson, AIM-IIC and other Council members interacted with students to encourage and prepare them for an entrepreneurial mindset. The focus was creating an enabling environment for the sharing of idea and resources within the knowledge ecosystem to identify problems and develop scientific and technological solutions for shared benefits.
